THIS LIST CANCELS ALL PREVIOUS OFFERS

LILIUM SARGENTIAE

INTRODUCTION

This List Cancels all Previous Offers

A few plants seem not to do well when set in autumn, but the majority flower better the next summer than when set in the spring, the roots having been established in the fall. Perennials can be safely cut back and sent the first week in September, Iris and Peonies late in August if preferred. Shrubs—roses, vines and trees should not be moved until all growth for the season is past which is usually not until after the middle of October.

Most plants set in the fall need protection for the first winter, put on just before hard freezing weather. After one season's growth they will not require this protection. Shrubs and trees should be banked when set in the fall.

Most of the lilies of this list may be sent in September, a few, however, like *Auratum*, *Speciosums*, *Henryi*, and the beautiful *Sargentiae* do not ripen until late September or early October.

Lilium Candidum makes a green leaved growth in the fall and needs to be in the ground in time to get this growth. My bulbs of *Candidum* from Northern France are due and promised for the middle of September. Last year, owing to the shipping conditions they did not reach New York until too late and I refused to accept them. The shipping conditions are greatly improved this year and I believe they will arrive in ample time for planting. Set the bulbs of *Candidums* two and one-half inches under and place a covering of straw mulch over them just before winter. All other lily bulbs are planted five to six inches under, and protected for winter with either straw or coarse strawy horse manure, put over top of beds just before hard freezing in the fall.

For cultural directions and more definite descriptions, please see Spring Catalogue which has been mailed. Spring 1918 Anniversary Catalogue.

The prices do not include postage or express, but are simply for bulbs boxed and delivered to my nearest express office.

LILIES

	EACH	DOZ.
Lilium auratum	\$0.50	\$5.00
Lilium auratum , a few small bulbs.....	.30	3.00
L. canadense (Meadow Lily).....	.15	1.50
L. candidum (Madonna Lily). Should be set early to insure full growth.....	.25	2.50
L. croceum . Golden yellow, blooms next after the Dahuricum.....	.25	
L. Dahuricum . One of the most reliable and hardy lilies. The flowers are reddish yellow and of good size, and the plant with age attains a height of three to four feet in good soil.....	.25	
L. elegans . Orange. A strong form of elegans with orange flowers.....	.20	2.00
L. elegans umbellatum . A strong, hardy and permanent form which makes a fine showing when massed.....	.25	2.50
L. elegans fulgens (L. Batemanniae). Flowers deep apricot.....	.35	3.50
L. elegans Thunbergianum . It is a very hardy and permanent Lily when grown in good garden soil.....	.25	
L. elegans Wallacei . This is a later form of L. elegans with smaller flowers and a reliable form. Blooms after Fulgens.....	.25	
L. Hansoni . See L. maculatum.....	.25	
L. Henryi . In form resembles the Speciosums, a splendid and healthy Lily from the mountains of China. It grows when established, four to five feet high, flowers orange-yellow banded with green. One of the easiest lilies to grow.....	.35	3.50
L. Grayi . A striking plant, 4 to 5 feet high, with dark red flowers, 1 to 5 on a stalk.....	.40	
L. maculatum (Hansoni). One of the most permanent..	.75	7.50

	EACH	DOZ.
L. Maximowiczii. Red.....	.20	
L. regale. A magnificent new Lily from China, with a vigorous constitution, medium in height, bearing one to several handsome, white, fragrant flowers; slightly shaded pink outside and the lower inner surface primrose-yellow. It is a hardy lily and I consider it one of the finest novelties offered in many years. It seems to thrive on any good soil not too wet. One customer from New Hampshire writes: "These of last fall did so very well. I find it one of the easiest lilies to grow." Every one who sees a <i>Lilium Regale</i> bed in bloom admires it. See illustration.....	.90	9.00
<i>Lilium Sargentiae.</i> This beautiful lily, a native of Thibet and local in its distribution, grows taller than <i>Regale</i> with its flowers in a cluster at the summit. Its white flowers have a chocolate shading outside. It doesn't seem to like much moisture in winter and well drained soils suit it best. The stock of this lily is very limited..	4.00	
L. Willmottiae. This new and rare Lily was discovered by Mr. Wilson in the Province of Hupeh, China. It is a very floriferous and hardy lily, in shape like the <i>speciosum</i> , but flowers much smaller. Color as described by A. Grove: "In color it is a beautiful shade but we have no word that exactly expresses it, one must refer to the color vaguely as a shade of orange. Technically it is that of <i>Rouge Saturne</i> ." It is still very rare in cultivation and I believe this is the first time it has been offered in America. As many as twenty-eight blooms have been counted here on one stalk. This gives an extended flowering season, since all do not open at the same time. It flowers with <i>Regale</i> , and seems to be quite as hardy, as it has stood our winters here without protection. The available stock of this new and rare lily is limited.....	4.00	
L. rubellum. The earliest Lily I have grown except, perhaps, the <i>L. monadelphum</i> . The delicate pink flowers are showy and quite durable. My bulbs of this are extra fine. Stock limited.....	.65	

The *Lilium Speciosums* are desirable for color and bloom in the garden after the phlox and other bright colored flowers are past. The delicate form and color make them useful for cut flowers.

	EACH	DOZ.
L. speciosum album	\$.40	\$4.00
L. speciosum rubrum30	3.00
L. superbum20	2.00
L. tenuifolium15	1.50
L. tigrinum splendens15	1.50
Superbum . American Turk's Cap Lily.....	.15	1.50
TENUIFOLIUM . Siberian Coral Lily.....	.15	1.50
Tigrinum . var. Splendens15	1.50

The prices do not include postage or express, but are simply for bulbs boxed and delivered to my nearest express office.

DAFFODILS, or NARCISSI

Early flowering bulbs, coming before tulips and after crocuses. Fine for cutting, hardy and of easy culture. Though any good garden soil suits, they prefer a rather stiff, deep soil and if the situation is such that they are shaded from the sun a third or half the time so much the better. It is well to cover these bulbs to keep out the frost during the first of the winter when setting is done late.

	EACH	DOZ.
N. Beethoven . Chrome yellow. Trumpet and perianth self color.....	.04	.40
Narcissus bicolor Empress . Very large flowers, white perianth, rich yellow trumpet; per hundred \$2.50.05	.55
N. bicolor Victoria . Large, erect flowers. Perianth creamy white, trumpet rich yellow; per hundred \$5.00	.08	.70
N. Burbidgei . Very fine for cutting. Clear white cup, margined bright cinabar red. A beautiful early flowering form of poeticus. per hundred \$2.50.....		.35
N. Burbidgeii John Bain . Large broad white perianth, small citron yellow cup and scarlet edge.....		
N. Emperor . Large flowers, primrose petals and deep yellow trumpet. A magnificent variety; per 100 \$5.00....	.08	.70
N. Henry Irving . Deep yellow wheel shaped perianth and large yellow trumpet.....	.06	.60
N. King Alfred . This giant stands high above all others for size and deep yellow flowers on long stems25	2.50

	EACH	DOZ.
N. Leedsii. Silver white perianth. Lemon yellow cup....	.04	.25
N. Mrs. Langtry. Broad white petals, large white cup edged yellow.....	.04	.30
Poeticus. Pheasant's Eye.....	.03	.25
Poeticus ornatus. One of the earliest of Poet's Narcissi; a free bloomer; per 100 \$1.50.....	.05	.35
Princeps. Per 100, \$1.20.....	.03	.25
Incomparabilis, Sir Watkin. A grand flower; sulphur-yellow cup; per 100, \$3.00.....	.05	.50
Von Sion, Double. Large, golden yellow.....	.05	.50
Mixed Daffodils. To naturalize in meadows, etc.; a first-class mixture, comprizing many of the best herein listed	.05	.50
Alba plena odorata. Double Poet's Narcissus. Double, pure white, very sweet-scented. Cannot be forced. Succeeds best in rather heavy soil and partial shade...	.04	.40

CROCUS

The ordinary spring-flowering Crocus will thrive in nearly all soils and positions. They do better planted in September than they do later or they may be set in August.

	DOZ.	100
Mixed Crocus. All colors.....	\$0.15	\$1.00
“ Golden Yellow.....	.25	1.25
“ Striped.....	.15	1.00
“ White.....	.15	1.00

TULIPS

Tulips like good drainage, and when planted over a gravelly subsoil or bottom, succeed best. It is a good plan to surround bulbs with sand, unless they are put into a sandy soil. A depth of 4 inches is none too deep for cold climates. Set the bulbs 5 or 6 inches apart.

	DOZ.	100
Artus. This fine red Tulip is one of the best for cutting or bedding; it comes early and lasts well.....	.35	2.25
Canary Bird. A clear golden yellow flower, large and handsome.....	.35	2.45

	DOZ.	100
Cottage Maid. Fine rose, flushed white; one of the best pink Tulips.35	2.50
Golden Crown. Golden yellow, edged with red. One of the best for naturalizing, as it increases rapidly.35	2.50
Queen of the Netherlands. Soft rose, suffused with white; extra-large flower. One of the best Tulips for cut-flowers or any decoration.50	3.00
Mixed.20	.75
Parrot Tulips. Choice Mixed varieties.30	1.75
Mixed Darwin Tulips. These are later-flowering Tulips, and contain many new and beautiful shades; flowers borne on long stems. Recommended for massing in shrubbery, or very decorative in the flower garden. Good mixture of all colors.35	2.75
Darwin Tulips Duchess of Westmorland (novelty, 30 cents each.		
Darwin Valentine (novelty), 30 cents each.		

The following list of plants were offered and fully described in the last spring catalogue sent out, the Anniversary, 1918. Prices in this list cancel all previous offers.

	EACH	DOZ.
Achillea filipendula30	
Achillea Pink form26	2.50
Achillea Ptarmica var. The Pearl20	2.00

<i>Weigela</i> . See <i>Diervilla</i> .		

HAZELTON'S HAND WEEDER

My men like this better than any other weeder we have tried. It is useful in thinning out. 25 cents each.

Postage on each, 5 cts. for first two zones and 1 ct. additional for each extra zone.

SURPLUS LIST

These sets are made up mostly of plants mentioned in my Spring Catalogue and are kinds of which I have the largest stock. We have more time to make these sets in autumn and offer them at lower rates on this account.

These offers are not open to spring delivery, because then we cannot spare the time required in filling them. Those wishing to take advantage of any offers for shrubs, trees, etc., in this list for spring setting, can get them in November, and cover them in any well drained soil, leaving only the tips of branches exposed, where they will keep in perfect condition, and may be set in the spring as soon as the ground is ready. For cost of boxing trees and shrubs, see my Spring Catalogue. These prices do not include postage. These offers are subject to surplus stock being sold. This stock is not a poorer grade than is used in filling orders for single or dozen lots. Deciduous trees and shrubs had better not be moved before October 15 for shrubs. Last of October for trees.
